Subject: Review deliverables ELIS SEIS 1 of 2
[ELIS SEIS - PO Data Report CoopReview .pdf](#)

Hello,

Attached please find the Physical Oceanography report and Phys O modeling report for the ELIS SEIS.

Pat, I apologize for the delay in sending this to the R2 folks but there were several drafts before these reports were suitable to be sent via email to anyone....

Please review it with a critical eye...

Please provide comments by September 5th.

NEPA folks, please listen into the webinar next week if you are available. The contractor for this study will be making a presentation on the Phys O modeling to the cooperating agency representatives. Next Wednesday (8/27/14 from 1-3).

Thanks, Jeannie
